Release notes – 31 December 2020

The deployment on the night of the 30 December provides additional functionality when sending consignments to Northern Ireland in the New Horizon Booking platform and generates the additional documentation required for the Safety and Security-requirements, as set out by HMRC, as a result of Brexit and the Northern Ireland Protocol.
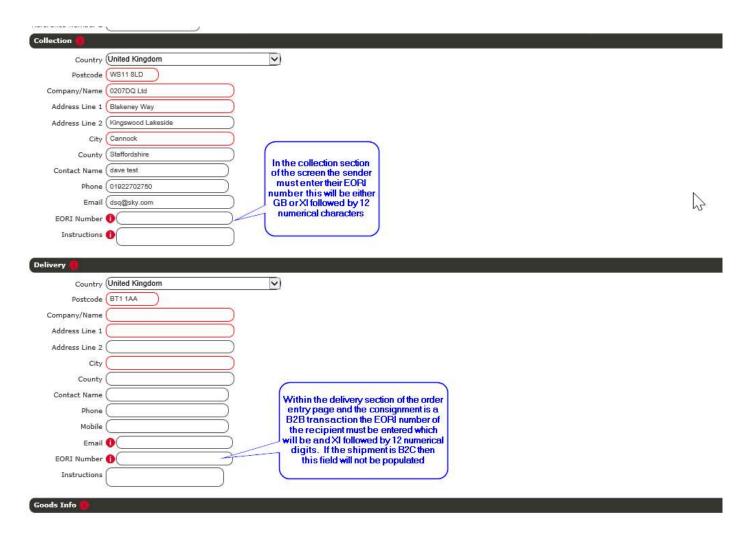

Security and Safety Declaration overview

If a customer is sending consignments to Northern Ireland, the following additional fields MUST be completed to fulfil the HMRC requirements for the Safety and Security declaration. Failure to do so will result in delays/ the return of the consignment.

When an order is created in the 'Order Entry' screen in New Horizon and the destination is Northern Ireland, there are now different fields that appear which have to be populated.
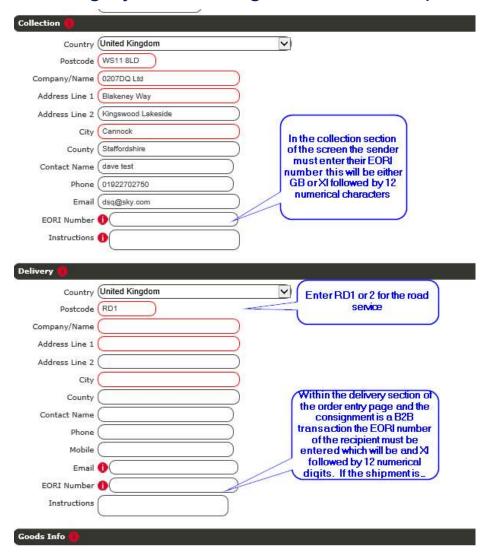

If the post code is a BT postcode for air services, or RD1 or 2 for the road services, the following fields will appear in the Order Entry screen and must be completed.
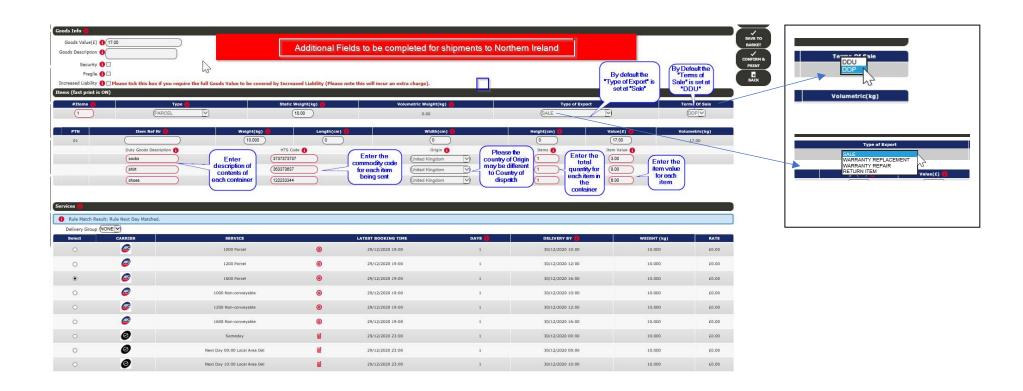

Sending consignments by Air – using a BT postcode

When the user completes the order form, the collection and delivery section will display the new field 'EORI number'

Show Available Services

All boxes which have a red border are mandatory fields and MUST be completed before the "Show Available Services" can be selected.

The user will then be able to select from the service list provided.   If the consignment is going by air, the service options are as above.

'RD1' or '2' is inserted into the postcode box in the order entry screen, then the only service that will be offered to the user is 'Road Service to Northern Ireland':

Completing the Additional information requirement

If a user wants to add an additional item to the consignment, then the boxes on the left hand side of the screen can be used

- Increase the value number in the #Items field or by using the "ADD" button on the left hand side of the screen

The system, by default will initially only provide one line to entry the details of the "Duty Goods Description", "HTS Code", "Origin", "Items", "Item Value".
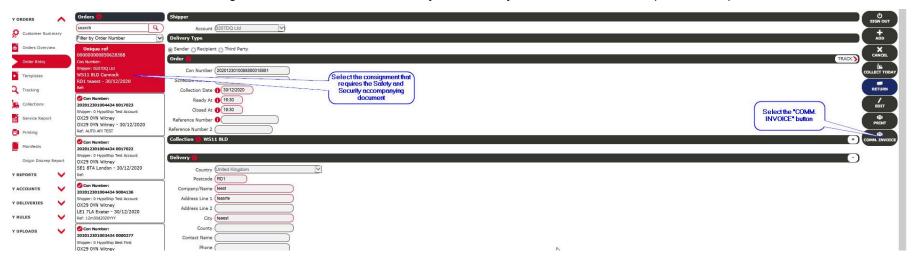

To add and additional line the "ADD" button of the right-hand side of the screen.

If all the information has been entered correctly and the order has been processed, "Confirm and Print" the order will become live in the New Horizon platform.

Safety and Security Documentation

When the user has created the consignment in New Horizon, the Safety and Security Documentation can be printed as a pdf document

When the user has selected the "COMM INVOICE" button, the dialogue screen will appear, giving the user the opportunity to download, print or save the document for further use or to place onto the consignment boxes.

If you have trouble viewing or printing **download invoice** instead.

Safety and Security Documentation

The document below is an example of the Safety and Security document required for all consignments destined for delivery in Northern Ireland.

N.B.

This additional functionality is currently only available for manual input in New Horizon.

Further development will be undertaken to enable API and Dataplug input for orders destined to Northern Ireland.

The Bridge API will not be updated or supported for this functionality.
